---

For your information Arkema received a call from Dave Scurto of the City of Riverview Development Department inquiring about the status and potential future use of the Arkema properties in Riverview. It was discussed that the properties are still undergoing remediation with EPA review and approval and the site EPA ID number was provided. Mr. Scurto indicated that he may follow up with the EPA or contact his congressional representative's office (John Dingell) to follow up with EPA on status and timing.

Please let me know if you have questions or wish to discuss further.
